

Outage Checklist

Print a copy of this list and save it in a convenient place in case you ever have a power outage.

Following this simple checklist **before** you call Elkhorn Rural PPD's emergency number will assist ERPPD in determining whether the outage is a line or an individual outage.

- Check to see if the fuses below the meter are good.
- If you have breakers, make sure they are "ON" and have not kicked out.
- Make sure any double throw switch (for standby power), is in the correct position.
- Check with your neighbors to see if they have electricity.
- Other information that will expedite repair time includes:
 - The name of the individual/business responsible for bill payments.
 - The consumer number and/or legal location of the property experiencing the outage.
 - The correct physical location assures the quickest response time by our crews.

Elkhorn Rural PPD's Emergency Number: (800) 675-2185

Elkhorn Rural Public Power District provides the following links as a service to its customers or those interested in information about the area ERPPD serves. These links are segregated into three generic categories: Communities, Economic Development, and Energy.
